

Inventory List for the Stand

Stand Explosion and Directions:

- 1) Attach each of the Legs (B) to the Center Bar (F). Insert the Screw Barrel (G), and a small silver screw (H). Once the Small Silver screw is tightened, the Screw Barrel Cap (L) can be applied to cover the hole.
- 2) Once you have both legs attached, you want to attach the feet next. Each foot uses 4 Large Silver Screws (J).
- 3) The next step is to attach the table tops. Using the 8 Black Table Screws (I), line up the 4 holes on each side of the table tops and tighten accordingly.
- 4) Lastly, we need to add the 2 Media Bar Holders (C). On each of the Media Bar Holders, insert all 3 of the Silver Bolts (K). Once that is done, slide the Media Bar Holder Into the 3 corresponding holes. On the inside of Leg, screw on the Silver bolt Nut (M) onto the Silver Bolt.
